story out of the facts of his life. Long-

quoin: It is a story of a ragged arching rise and pradually tombling into a place where there is little cles but moves and what moves will buy, le may be added that it stone the success of a financier, who has builtyng is to be to his presental formests, as well as those of the corporation with which he has 1376 been identified to be in with the Felleral and State administrations no matter what

their political character might be. Politicians have evinced much interes in the fact that Mr McCall's riends, Bujene Woods, Androw Hamilton, and Anthony N. Brady, were smong those Democrats who worked for the nomination of Allon-B. Parker to the Presidency last yer Moodl was one of those wald and same Democrate who was ormsulfed sequently and who advised freely derhes he time preceding the Sz. Louis Convertion; when the great compliancy against progressive Democracy was worked out.

The fact has Mr. Motall contributed \$43.7 2.50 of New Lork Life policyholders' money to the Republican campraign fund of 1904 indicates the deep interest he felt in his candidate and the platform on which that candidate stood.

McCall was a arefected boy in the sixtles. Words Bamilton, and Brady were his playmans at the little common chool which they attended at Albany. In 1887 the powerty of his family compelled him to-go to work. He got a 200 a month clerk ship in the old Albany Assortm at House for State Corrency 7, the was then twenty?

In 1869, through activity to the Depocratic organisations McCall obtained an 8800 a year messengership in the State in surepris Department, of which George IV. Miller was then the head Remade a study of insurance law and the conduct of the department, and was soldly advanted as Examinor and Deputy Superintendent.
When in 1872, John A. Dix Republican was elected Governor, rounce McCall spotsed to Republican release to have him retained to fine the vac successful and served Republican Reperiotente of Treurant Burth and Fairment until Land Two Grover Clera-hand become & work Brack and Hapter induced the late Daniel Marning and Daniel r. Lymont in mas McCall's alevation as chief of the department of insurance They complied And early in 1864 McCell was drawing \$6, 00 a year on superintendent of insurance.

When the querrel between Cleveland and Hill broke out in 1686 lifes the former had become President and the latter Governor. Mobili cast his fortunes with Hill For a while Hill kept McCall in office until 1886; when the insurance man was offered and accepted \$15,000 a year as comptroller of the Equitable Life Assurance Society. In the early bineties the New York Life scandale developed. President Reers was put out, and in February 1899, McCall was made President of that corporation at a salary of \$75,000 - year. He has held this office ever since, his malary, however, having been increased to \$100,000 in 1901. McCall was a most active supporter of 2010 McKinley for the presidency in the campalune of 1896 and 1900. Alter the defeat of Parker in 1904 he declared in a Los

Angeles interview: I am with President Rossevelt off every line of policy he has enunclased on enonomic ducations. The President is correct in-bolding that some branch of the Covern-Hongkong, September 16, 1905. 1888 ment should supervise and to a degree control freight rates. McCall is understood to be twelve times a millionaire. His seaside home and von End, N. J., alone cost him half a millione!

Shadow Lawn is the name of the Mo-Call summer home. It is popularly known as 'White House by the Soa,' A description of the palace contains these extracts:
From a bacron piece of farming land has given a beautiful country home. Plazzas of unusual width aurround the house, and there are many balconies from which are fer reaching prospects. A roof garden is cutered from the upper promenade. By means of the broad plazza at the poste co-chere approach, illuminated with great Italian lanterns of bronze, the reception vestibule is reached. This opens upon an claborately and regally furnished parlour. The dining room is 30 x 40 feet and furnished in mahagany. Ancient armour adorns the doors and windows of the billiard room. The grand hall is of green black Flomish oak, and the wall frieze and panels are filled with tapeatry. The court is 70 x 80 feet, and the dome is of glass. Largeart glass windows add to the beauty of the merza nine floor. Upon a single floor are eight man-ble baths. The building has electric and gas lighting, is heated by steam, has an elevator, and fire protection is afforded by a system of stand pipe and hose. The McUall stable, which houses some of the finest blooded stock in the world, cost \$150,000. Provision is made for a accra of horses and a dozen or more of automobiles

MoCall has a record for driving out of business other insurance corporations than Twelve fire and thirty-three life com-panies have been the victims of his search-ing methods. While Examiner and Doputy Superintendent of Insurance, McCall asserted that the life and fire insurance business in this and other States was in a

most demoralised condition. McCall was one of the promoters of the celebrated Cleveland bond issues of 1896, and on behalf of the New York Life subscribed for \$10,010,000 worth. Before nuthorising the is us. President Cleveland summoned Mr McCall to the White House and asked his advice. McCall was most coup to save the Government credit. He first effored to join with other corporations in taking the entire issue of \$10.000,000.

Then he decided to did for \$5,000,000 at

108 and \$5 000,000 at 109. He finally bid 1101 and 111, the Morgan syndicate bid being 110 67, and get 110,000,000 worth for his company. He claimed afterwards that the New York Life profited a half million by the

Later, McCall became very intimate with Morgan, Belmont, Schiff and other wellknown financiers, and they have since been in many deals of great magnitude together. Frequently ban McCall clubbed with them to prevent gold exports, and collectively they have usually succeeded in making heaps of money out of the deals.

#### THREE LUCKY WOMEN.

Suppenent From Indigestion Tell of THEIR CURE BY MOTHER SEIGEL'S SYNUP.

Food is one of the first necessities of our Hves, as necessary to us as the air we breathe. The first cry of a new-born infant is the plea for food, and the need of it ends only with life. Had food been casier to obtain ages ago in Europe, there would be fewer white men in this newly settled land, or possibly none.

These are plain traths, known to everybody. What is not nearly so well-known is that one may est an abundance of good food and jet starve, deriving from it, instead of nourishment, only intolerable pain. Where that is the case, the sufferer is a victim of indigestion.

There are thorsondered such sufferers in every

part of the world. Among them, until recently. was Mrs. Anna Olwage, of 104, Bultfontein Boad, Kimberley, C. C. For more than five years I suffered from a disordered stomach, she cays in a leiter dated December 5th, 1904. me to resort to purgatives; but their only effect was to make me worse. Headache and fleepless. ness, so commonly attending constination, Canved Chairs, troubled me greatly. None of the many Acc., do., &c. medicines I tried seemed to touch my complaint, until I came to Mother Seigel's Syrop. My husband's a tention was called to that remedy by a very remarkable ours it effected in Johannesburg. It proved a looky thing for me, for to day I am as well and strong as any woman tworty years wounder, a fact due entirely to Mather Salgel's Syrup

Hirdly less strong is the testimony of Mrs.

Annie Paine, of 20, Bartel's Place, Besconafie d. C. C. who writes thus on December 5tb, 1904; Three years ago I soffed badly from constipa-tion for which I quite failed to find any means of relat. At last I consulted a doctor and it proved a fortunate thing for me that I did so; for he edvised me to take a course of Mother Seigel's Sysup. Two bottles were sufficient for my ours, and in gratitude I have ever since recommended that medicine to my friends. Several of them have derived great benefit from

THE JAPANESE BALL.

To-Night's Function.

The Japanese Ball which is to be given to-night in honour of the Mikado's birthday gives promise of being a very brilliant sflair. The decorations are carried on on a very unique scale, and even seen in the daytime when all the imperfections are glaringly laid bare, and the effect of the candle and electric light is wanting, they compel admiration. A full account will be given to-morrow. Miss Young, Mr and Mrs Yers.

# INTRODUCTION

To those who have patronized us, in foreign lands, we need none; but, in addressing ourselves to the Public of Hongkong for the first time, we wish to impress upon your minds that, although new and strangers to you here, we have been established for many years in England, and some of our largest orders have come to us by post from China.

# LUCIOS DIAMONDS

ARE BY FAR THE NEAREST APPROACH TO GENUINE DIAMONDS EVER DISCOVERED.

They have all the LUSTRE

of old mine stones. They will stand all acids, heat, alkali,—etc. In fact they can be WORN AND WASHED LIKE REAL DIAMONDS, and they are the only imitations on earth that do not depend on artificial backing for their brilliancy. So near do these stones resemble real diamonds that experts have been deceived, and it is a brilliancy. So near do these stones resemble real diamonds that experts have been deceived, and it is a known fact that money lenders have often loaned money on them, far in excess of their value.

In order to introduce these marvellous Stones quickly, we will sell a limited number of beautiful, brilliant

#### A GIRL'S SERIOUS FRIGHT

, AND WHAT IT LED To.

THERE is a plague of rate in the East End of London. A girl named Louisa Raudall, 121 Randolph-road, Oustom House, London, E., was lifting some boxes in a factory, when an enormous rat leaped out over her shoulder.

When she got home her mother was startled by the terrible effect the shock had upon her. She was a thin, animic girl, stunted in her development through want | BUTTERFIELD & SWIRE. of blood. The fright caused St. Vitus' Fox four months she was always spilling her food, dropping plates and dishes. When she walked she would throw one foot forward and drag the other, like a paralytic, and presently she was so untly paralysed all down one side. An accidental & Co., LD. wetting led to rhoumatic fever. She

seemed an invalid for life. But one day, continued Mrs Randall, · I read of a girl who had suffered just as Louisa was suffering. We decided to try if Dr Williams pink pills which cured this girl, would-do good. After the third bottle of pills, Louiss could control her fingers. New blood began to flow in her voins. The paratysis and the pain went altogether. Soon Louise got up, after three months in 28, Beans. - Chinese.

\*Anomia had retarded herdevelopment, but with new blood she was soon alhealthy girl. A little time ago she had three weeks at a convalencent home, and that completed pick pills effected. My daughter hopes to begin business again soon, and she is corcainly strong enough for anything."

There can be no doubt as to the cure. Miss Randall looks now to ore like a country | Bengul, for Shanghai. girl than a Londoner.
